Mastering Wound Care Right at Home

Wounds from surgery? They're sneaky troublemakers if ignored. Redness creeps in, or drainage looks off—yikes. [web:60]

Our [home health nurses](<https://alwaysbestcare.com/johnston-county/resources/senior-safety-i-got-the-covid-19-vaccine-now-what/>) in Garner handle the nitty-gritty, cleaning and dressing per doc's orders, spotting issues early. [web:60][web:62]

Here's what they do, plain and simple:

- Gently clean incisions and swap dressings
- Keep an eagle eye on infection red flags like swelling or heat
- Deal with staples, stitches, or drains without a fuss
- Show you and your family the ropes for in-between care

This hands-on approach? It slashes complication odds, catching hiccups before they snowball. [web:60][web:62]

Surgery, like a hip replacement, leaves you wobbly, but who wants gym treks? Physical and occupational therapists from Always Best Care of Garner turn your home into rehab central—practical, no frills. [web:60][web:68]

****Physical therapy**** gets you:

- Building strength without overdoing it
- Sharpening balance so falls stay at bay
- Practicing safe moves around furniture and stairs
- Nailing walkers or canes like a pro

****Occupational therapy**** zeroes in on everyday wins:

- Rediscovering dressing, bathing, or kitchen basics
- Tweaks that match your space, not some sterile room

It's therapy that sticks because it's your world. [web:60][web:72]

Everyday Nursing That Keeps Watch

Our skilled nurses don't stop at wounds. They track vitals—blood pressure, pulse, temp—manage pain, ensure pills go down right, and flag odd symptoms like breathlessness. [web:60][web:62]

Direct line to doctors? Check. Families breathe easier knowing we're on it, nipping problems in the bud. [web:49][web:62][web:68]

Prepping Your Space for Smooth Sailing

Before wheels hit the driveway, smart tweaks turn your home into a recovery haven. Clear clutter to dodge trips, stock easy-grab meds and snacks, freeze meals ahead. [web:60]
