COVID-19 CAREGIVER PROTOCOL

- Pick up your Care Protection Kit (includes latex gloves, antibacterial gel, and temperature strips) when available at the Always Best Care office in Torrance.
- Wear gloves while on assignment.
- Assess temperature to assure reading is normal (97-99 degrees Fahrenheit) prior to beginning your shift.
- Assess client's temperature (with permission) to ensure it is within the normal range before care begins.
- Engage hand washing regimen prior to beginning care and every hour thereafter until the end of your shift.
- Immediately report any illness to your supervisor here at Always Best Care.
- Remain at home if you exhibit symptoms of COVID-19, including respiratory symptoms, fever, cough, shortness of breath, and breathing difficulty.

We Are All In This Together!
